GREEN CITY HACKATHON
BigSurv 2018

Presented by Team 2:
Sarah Kelley, Data Scientist, USA
Daniel Guzman, Statistician, USA
David Peng, Statistician, USA
Ashley Hyon, Methodologist, USA

bicing

GEO SPATIAL ANALYSIS OF COMPLAINTS & BICING EXPERIENCES

▸ Mapped the location of the complaints from the dataset to see if there are certain neighborhoods or types of complaints that are most prevalent.

▸ Developed a Shiny App to scrape twitter feeds with experiences with bicing.

▸ Future Extensions: Geo-code the tweets to identify any trouble areas or type of negative experience that are most common.
